Ischia is another gem at the northern end of the Gulf of Naples. Its volcanic nature makes it one of the largest spas in Europe, and its thermal waters and gardens have been known since ancient times. Ischia is not to be missed for its therapeutic volcanic springs, beauty spas set in lush surroundings, its magnificent clifftop castle at Ischia Porto, its silent sandy coves and its finest local cuisine. You will admire the Aragonese Castle, the beach of Maronti, the Terme di Cavascura – an equipped natural spa –, or alternatively the Baia di Sorgeto – a natural cove that serves as thermal area en plein air: there, hot and cold water are mixed with fresh and salt water, awakening unique sensations. The skipper will be your assistant and will recommend the best places along the coast where you can take a relaxing swim and relax in the sun!

Among the islands of the Gulf of Naples, Procida is without doubt the most uncontaminated and far from the mass tourism routes. A fascinating place not to be missed, rich in natural beauty and magical atmosphere. Nominated Italian capital of culture 2022. The private boat tour will start from Sorrento from where you will reach in about an hour the island of Procida. While sailing around the island you will admire from the sea all the beauties that surround it. Procida is rich in picturesque landscapes including the famous fishing village "La Corricella" where you can stop by boat and walk along the shore of the beach, watching the fishermen who repair the nets. Among the most striking features of La Corricella are its particular colorful houses that make the incredible atmosphere both day and night, ideal for romantic walks. Another landing point is the port of Marina Grande from which you can reach the historic center very simply. Moreover, for film lovers, we remind you that Procida was chosen in the past as a film set for films of great prestige including Il Postino with Massimo Troisi to which is dedicated a square. Walking through the island you can reach the medieval village of Terra Murata, located on the highest point of the island. During the tour your skipper will stop by the best spots along the coast for swimming, sun bathing and snorkelling, as well!

Among the islands of the Gulf of Naples, Procida is without doubt the most uncontaminated and far from the mass tourism routes. A fascinating place not to be missed, rich in natural beauty and magical atmosphere. Nominated Italian capital of culture 2022. The private boat tour will start from Sorrento from where you will reach in about an hour the island of Procida. While sailing around the island you will admire from the sea all the beauties that surround it. Procida is rich in picturesque landscapes including the famous fishing village "La Corricella" where you can stop by boat and walk along the shore of the beach, watching the fishermen who repair the nets. Among the most striking features of La Corricella are its particular colorful houses that make the incredible atmosphere both day and night, ideal for romantic walks. Another landing point is the port of Marina Grande from which you can reach the historic center very simply. Moreover, for film lovers, we remind you that Procida was chosen in the past as a film set for films of great prestige including Il Postino with Massimo Troisi to which is dedicated a square. Walking through the island you can reach the medieval village of Terra Murata, located on the highest point of the island. During the tour your skipper will stop by the best spots along the coast for swimming, sun bathing and snorkelling, as well!

This territory is located in the Strait of Bonifacio, between Corsica (France) and Sardinia (Italy). At your discretion, we'll stop on La Maddalena, the largest island with a homonymous town – the largest settlement –, for a visit of its historical center. We will board our private boat again and reach Spargi, Budelli, Caprera, and Cala Coticcio for a nice swim in the middle of archipelago. The itinerary may be subject to changes according to weather conditions.
