MESSINA PIER

SPM1 Full-day Etna

Meet your driver and guide directly from dockside of your cruise ship to Messina. Mount Etna is one of the tallest active stratovolcanoes in Europe. A tour to this area (in eastern Sicily) is thrilling and a once-in-a-lifetime experience. Over the centuries, the eruptions have changed the slopes of the volcano, and today the area is a massive natural park that can be visited with a guide following most common routes. The guide will provide information about the history of the volcano and its surroundings. In particular, reach the sites of the last eruptions as well as the fascinating Silvestri craters (shaped by an eruption in 1892) and take in the astonishing views. Trekking this magical territory will be truly memorable! In light of its history of large, destructive eruptions Mount Etna has been deemed worthy of particular study (Decade Volcano) by the International Association of Volcanology and Chemistry of the Earth's Interior. At a scheduled time (depending on the cruise departure time) transfer back to Messina pier.

Then, visit the amazing Taormina, which dominates the Ionian coast, from Capo Sant'Andrea to Capo Taormina, and it offers breathtaking views. Walk along Corso Umberto, the main street, and after "Porta Messina" and "Porta Catania", reach the ancient theater of Taormina - the second-largest classical theater in Sicily. SPM3 Godfather tour

Meet your driver and your guide directly from dockside of your cruise ship in Messina and depart to head to Savoca, a charming medieval town. Its center is a square overlooking the sea and there we will find the famous "Bar Vitelli", a café where you can enjoy the traditional granite (semi-frozen desserts made from sugar, water and various flavorings). You will see the ruins of an ancient synagogue and visit the Chiesa di San Nicolò - built in the 13th century and restored in the 18th century. In 1970 some scenes of The Godfather were shot just near this church. The Convento e la Chiesa dei Cappuccini di Savoca will be the last stop. A highlight here is a crypt below the surface of the square adjacent to the main edifice that protects 37 mummified bodies of rich people, lawyers, landlords, monks, clergymen, abbots, doctors, poets, magistrates, a noblewoman and three children, all belonging to the savocese aristocracy. We will then head to Forza d'Agrò, embedded in the d'Agrò Valley. Here you will be able to enjoy breathtaking views of the valley and admire the clear traces of intense farm activity in a recent past. You can also enjoy a beautiful panorama that overlooks the Ionian coast. Forza d'Adrò was also the location for the scenes set in Corleone of Coppola's The Godfather; it's also featured in the sequel, The Godfather Part II (1974). At a scheduled time (depending on the cruise departure time) transfer back to Messina pier.
