Herculaneum was a residential coastal town which has been superbly preserved due to the fact that it was covered in volcanic mud during the eruption of Vesuvius in 79 AD. The guide will give people the chance to view the town from above before heading down and beginning the guided tour which lasts about an hour. The buildings have been so well preserved that you can walk down the streets pretty much exactly as the Romans would have done over 2000 years ago! There are still original timbers show-

ing in the buildings and clay pots stored as they would have been at the time of the eruption. The tour takes in many of the most important sites including preserved pieces of furniture, upper wooden floors of houses, mosaics on the floor and sculptures as you take a peek around the houses and streets. All this has made it a UNESCO World Heritage Site, and provides you with an unrivalled insight into life of the ancient Romans

NOTES:

This tour is not recommended for a wheelchair user or walking difficulties.

Meet your expert local guide in Sorrento and embark on ferry toward the Island of Capri. Arrived in Capri you'll take a boat ride to the popular and dreamy "Grotta Azzurra" (Blue Grotto), where sunlight passes into an underwater cavity and shines through the seawater, creating a magical blue reflection. After returning to the port you'll board on a minibus for a scenic drive to Anacapri, 918 feet (280 meters) above the sea level. You'll see wonderful views of the bay of Naples before continuing to a local restaurant for lunch. After lunch you can take advantage of some free time to explore Capri at your leisure or go shopping. Then you'll return to Marina Grande and embark back to Sorrento.

NOTES:

During peak season, visiting the Blue Grotto in Capri may involve long lines and limited capacity. If access is not possible, or the weather conditions do not allow it, our guides will suggest alternative attractions to ensure a satisfying and memorable tour (e.g. Faraglioni rocks).
