Florence Palazzo Vecchio:
museum ticket and audioguide

The discovery of Renaissance treasures and Medici's history and secrets inside their Palace.

SKIP THE
LINE!

Palazzo Vecchio, which stands majestically on Florence skyline,
is one of the most recognized symbols of the city. Built during
the Middle-Ages, it still preserves the austere architecture of
the fourteenth century, with its crenelated top and the imposing
Arnolfo's Tower. The indoor parts of the building, beautifully reno-
vated in the '500 when the Palace became the house of Medici,
are instead typically Renaissance and hold priceless treasures
and works of art. In the sumptuous halls and the private apart-
ments of the family, worked the greatest artists of the period.
Visiting the palace means to stroll among the wonders of Renais-
sance and retrace its history, discovering also the secrets and

tales linked to the powerful Medici family. The elegant courtyard
by Michelozzo, welcomes you at the beginning of a visit that will
enable you to admire the famous and beautiful "Hall of the 500",
the charming and intimate study of Francesco I de' Medici, the
beautiful private apartments of Eleonora of Toledo and Cosimo I
de' Medici and the sumptuous and stunning boardrooms, in an
incredible series of frescoes, paintings, decorations and statues
of the greatest Renaissance artists as Michelangelo, Donatello,
Verrocchio, Vasari, Ghirlandaio and Bronzino, just to mention
some of them.

Take advantage of your Italian stay to not only save yourself from disappointing food experiences but also learn how to prepare pizza and gelato yourself! Under the expert guidance of a chef, you will first become a pizza-making expert step by step: you will be taught the tricks for a perfect dough as well as a delicious tomato sauce. After pizza, you will turn into a gelato maker: you

will get familiar with the main ingredients and learn how to select the best products. Your chef will show you the development and application of natural colors, the heating and freezing techniques and their effect on the ingredients. The result will be a denser texture and more intense flavors than fluffy, whipped ice cream. Join this experience and repeat it at home whenever you will like!
